1. CORPORATE INFORMATION

Harte Gold Corp. (The "Company" or "Harte Gold") The Company was incorporated in Ontario on January 22, 1982 and is a reporting issuer in the Provinces of Ontario, Alberta and British Columbia. The common shares of the Company trade on the Toronto Stock Exchange under the symbol "HRT" and on the Frankfurt Stock Exchange under the symbol "H4O". The head office and principal address of the Company is 8 King Street East, Suite 1700, Toronto, Ontario, M5C 1B5

The Company is engaged in the acquisition, exploration and development of mineral resource properties with a focus on gold properties located in the Province of Ontario, Canada, and currently owns interests in two advanced exploration projects: the Sugar Zone Property, 60 km east of the Hemlo area gold mines, located on the north shore of Lake Superior and the Stoughton-Abitibi Property (formerly Stoughton-Porcupine), 110 km east of Timmins and 50 km north east of Kirkland Lake. Harte Gold is planning to complete an Advanced Exploration and Bulk Sample program on its Sugar Zone Property over the next two years and this will determine the recoverability and economics of its resource, and may result in the reclassification of these resources as reserves. On the basis of information to date, the Company has not yet identified a mineral resource on its Stoughton-Abitibi Property.

2. BASIS OF PRESENTATION

(a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. Accordingly, certain information and disclosure normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed. These condensed interim financial statements should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2013, which were prepared in accordance with IFRS as issued by the IASB.

The management of Harte Gold prepared these unaudited condensed interim financial statements, which were then reviewed by the Audit Committee and the Board of Directors. The unaudited condensed interim financial statements were authorized for issue by the Board of Directors on August 13, 2014.

(b) Continuance of Operations

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of interests in mineral properties and the Company's continued existence is dependent upon the preservation of its interests in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and noncompliance with regulatory and environmental requirements.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the Company's financial statements for the year ended December 31, 2013.

4. CASH AND CASH EQUIVALENTS

Restricted cash of $351,119 at June 30, 2014 (December 31, 2013 - $351,119) is cash held by the Ontario Ministry of Northern Development and Mines ("MNDM") as assurance that the Company will complete its obligations under the proposed Closure Plan in respect of the Advanced Exploration and Bulk Sample program. In December 2012, the Company applied for Closure Plan approval and had submitted the cash assurance amount along with its application. The Closure Plan was approved in early February 2013 and the cash will be held in trust by the MNDM until all remediation and closure procedures under the Closure Plan have been completed.

7. EXPLORATION AND EVALUATION ASSETS

Sugar Zone Property, Hemlo Gold Area

The Sugar Zone Property consists of 414 contiguous claims (comprising 1,844 contiguous claim units) within the Sault Ste. Marie Mining Division located in Ontario, approximately 60 km east of the Hemlo area gold mines, 25 km northeast of White River off the Trans-Canada Highway (#17). The Company owns 100% interest in these claims. Of these, 288 claims are subject to a 3.5% net smelter royalty ("NSR") in favour of the original vendors of the property, which can be reduced to 2% through the payment of $1.5 million. Additionally, 3 claims are subject to a 3% NSR that can be reduced to 1.5% upon payment of $1.5 million.

Stoughton-Abitibi Property, Timmins Porcupine Gold Area

The Stoughton-Abitibi Property (formerly known as Stoughton-Porcupine property), is located along the Destor-Porcupine Fault, 110 km east of the Timmins, 50 km northeast of Kirkland Lake, Ontario and 10 km due east of the Holloway-Holt gold mine and mill and consists of a 90% interest in 9 claims and a 100% interest in 25 claims in the Larder Lake Mining Division of Ontario.

In 2009, the Company concluded that it should prioritize the Sugar Zone Property and recorded an impairment provision of $2,756,133 against the Stoughton-Abitibi Property. A small exploration program was conducted in 2013, but this led to no changes in the known mineralization on the property. Harte Gold has concluded that it will continue to focus all its efforts on the Sugar Zone Property and accordingly, a further impairment provision of $66,842 was recorded in respect of the exploration expenditures incurred on the Stoughton-Abitibi Property during 2013.

11. STOCK OPTION PLAN

The Company has established a stock option plan to provide additional incentive to officers, directors, employees and consultants in their efforts on behalf of the Company in the conduct of its affairs. The terms of the stock option plan provide that the directors have the right to grant options to acquire common shares of the Company at not less than the closing market price of the shares on the day preceding the grant. The number of shares reserved for issuance is not to exceed 10% of the issued and outstanding common shares from time-to-time. At June 30, 2014, the Company had 2,077,554 (December 31, 2013 – 5,183,825) common shares available for granting of future options.

Under the terms of the plan, options vest immediately unless otherwise determined by the Board, and expire on the fifth anniversary from the date of issue unless otherwise specified. As at June 30, 2014, a total of 20,700,000 options were outstanding under the stock option plan.

16. COMMITMENTS

The Company has minimum lease payments to make for a building rental as follows:

< 1 year	$ 10,000
1 – 5 years	$ nil

The Company also has a commitment under a site access agreement to pay $20,000 per annum during exploration and $70,000 per annum upon commercial production, subject to a maximum of $500,000.

17. CONTINGENCIES

Pursuant to a 2009 audit by the Canada Revenue Agency ("CRA") of 2003 exploration expenses, current management conducted a review of expenditures incurred and filings made in respect of flow-through share issuances during the period 2003 – 2008. This review uncovered issues related to the use of flow-through funds, timing of expenditures and other related compliance matters. The Company filed the required documents with CRA related to the issuance of flow-through common shares during this period. The December 31, 2012 balance sheet contained a provision of $427,425 comprised of both the probable obligation to reimburse investors as a result of flow-through funds not spent within prescribed time limits and an amount for the interest charges and penalties under the Part XII.6 provisions in the Income Tax Act. During the year ended December 31, 2013, the Company paid a CRA assessment notice in respect of the Part XII.6 interest and penalties and reimbursed investors for a total expenditure of $323,608. The Company estimates that the remaining provision of $103,817 is sufficient for any additional reimbursements that may be required.

The Company has filed a claim against former directors and officers of the Company that were retained, employed or otherwise engaged by the Company during the relevant period, for damages of $750,000 relating to CRA liabilities and indemnity of $750,000 for any amounts that have been or may need to be reimbursed to investors. Any recovery by the Company is very uncertain so no amount has been included in the financial statements for any such potential recovery.

18. OPERATING SEGMENT

The Company is engaged in the exploration and evaluation of properties for the mining of precious metals in Canada. The present focus of the Company is entirely on its Sugar Zone Property. The corporate office operates to support the field work being carried out on the Sugar Zone Property. As a result, the Company operates in one reportable operating segment.

19. SUBSEQUENT EVENTS

On July 31, 2014, the Company closed a non-brokered private placement financing for a total gross proceeds of $750,000. The Company issued 3,333,333 units at $0.225 per unit. Each unit consists of one common share and one-half common share purchase warrant. Each full warrant is exercisable at $0.30 per common share for a period of 18 months from closing. Common share purchase warrants issued under the private placement (Unit and Finder's warrants) are subject to an acceleration clause. In the event the closing price of Harte Gold common shares is equal to or greater than $0.50 for a period of 10 consecutive trading days, Harte Gold may accelerate the expiry date of the warrants by giving notice to the holders thereof through the issuance of a press release. In such case, the warrants will expire on the 30th day after the date on which such notice is given.
