Notes to the Condensed Financial Statements
For the Nine Months Ended September 30, 2015
(unaudited)

1. NATURE OF OPERATIONS

Harte Gold Corp. (The “Company” or “Harte Gold”) was incorporated in Ontario on January 22, 1982 and is a reporting issuer in the Provinces of Ontario, Alberta and British Columbia. The common shares of the Company trade on the Toronto Stock Exchange under the symbol “HRT” and on the Frankfurt Stock Exchange under the symbol “H4O”. The head office and principal address of the Company is 8 King Street East, Suite 1700, Toronto, Ontario, M5C 1B5.

The Company is engaged in the acquisition, exploration and development of mineral resource properties with a focus on gold properties located in the Province of Ontario, Canada, and currently owns interests in two advanced exploration projects: the Sugar Zone Property, 60 km east of the Hemlo area gold mines, located on the north shore of Lake Superior and the Stoughton-Abitibi Property (formerly Stoughton-Porcupine), 110 km east of Timmins and 50 km north east of Kirkland Lake. Harte Gold is planning to complete an Advanced Exploration and Bulk Sample program on its Sugar Zone Property over the next two years and this will determine the recoverability and economics of its resource, and may result in the reclassification of these resources as reserves. On the basis of information to date, the Company has not yet identified a mineral resource on its Stoughton-Abitibi Property.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and IFRS Interpretations Committee (“IFRIC”) interpretations applicable to companies reporting under IFRS, including IAS 34, Interim Financial Reporting. Accordingly, certain information and disclosure normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed. These condensed interim financial statements should be read in conjunction with the Company’s annual financial statements for the year ended December 31, 2014, which were prepared in accordance with IFRS.

The management of Harte prepared these unaudited condensed interim financial statements, which were then reviewed by the Audit Committee and the Board of Directors. The unaudited condensed interim financial statements were authorized for issue by the Board of Directors on November 11, 2015.

b) Continuation of Operations

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of interests in mineral properties and the Company’s continued existence is dependent upon the preservation of its interests in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company’s ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and noncompliance with regulatory and environmental requirements.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the Company’s financial statements for the year ended December 31, 2014.

Sugar Zone Property, Hemlo Gold Area

The Sugar Zone Property consists of approximately 29,300 hectares within the Sault Ste. Marie Mining Division located in Ontario, approximately 60 km east of the Hemlo area gold mines, 25 km northeast of White River off the Trans-Canada Highway (#17). The Sugar Zone Property includes both mining claims and leases and the Company owns a 100% interest in all of these. In 2014, Harte Gold made the final option payment on the 3 Halverson claims. Based on this and the work commitment expenditures previously made, the 3 claims were transferred to the Company.

Certain of these claims and leases are subject to net smelter royalties ("NSR") ranging from 3.0% to 3.5% in favour of the original vendors of the properties which can be reduced by 1.5% upon payments of up to \$3.0 million.

The following costs have been capitalized to exploration and evaluation expenditures in respect of the Sugar Zone Property.

Stoughton-Abitibi Property, Timmins Porcupine Gold Area

The Stoughton-Abitibi Property (formerly known as Stoughton-Porcupine property), is located along the Destor-Porcupine Fault, 110 km east of the Timmins, 50 km north-east of Kirkland Lake, Ontario and 10 km due east of the Holloway-Holt gold mine and mill and consists of a 90% interest in 9 claims and a 100% interest in 25 claims in the Larder Lake Mining Division of Ontario.

In 2009, the Company concluded that it should prioritize the Sugar Zone Property and recorded an impairment provision of \$2,756,133 against the Stoughton-Abitibi Property. A small exploration program was conducted in 2013, but this led to no changes in the known mineralization on the property and an impairment provision of \$66,842 was recorded in respect of the exploration expenditures incurred on the Stoughton-Abitibi Property during 2013. No significant exploration work was completed during 2014. In view of the current poor investment climate for mining exploration properties on which no indications of resources exist, management have concluded that it would be too speculative to estimate a recoverable amount for the Stoughton-Abitibi Property in excess of \$nil at September 30, 2015.
